PPA HOLDING
(Petro Payame Arg)

- **Global Energy** Supply Chain Management

Delivering Energy.
BUILDING TRUST.

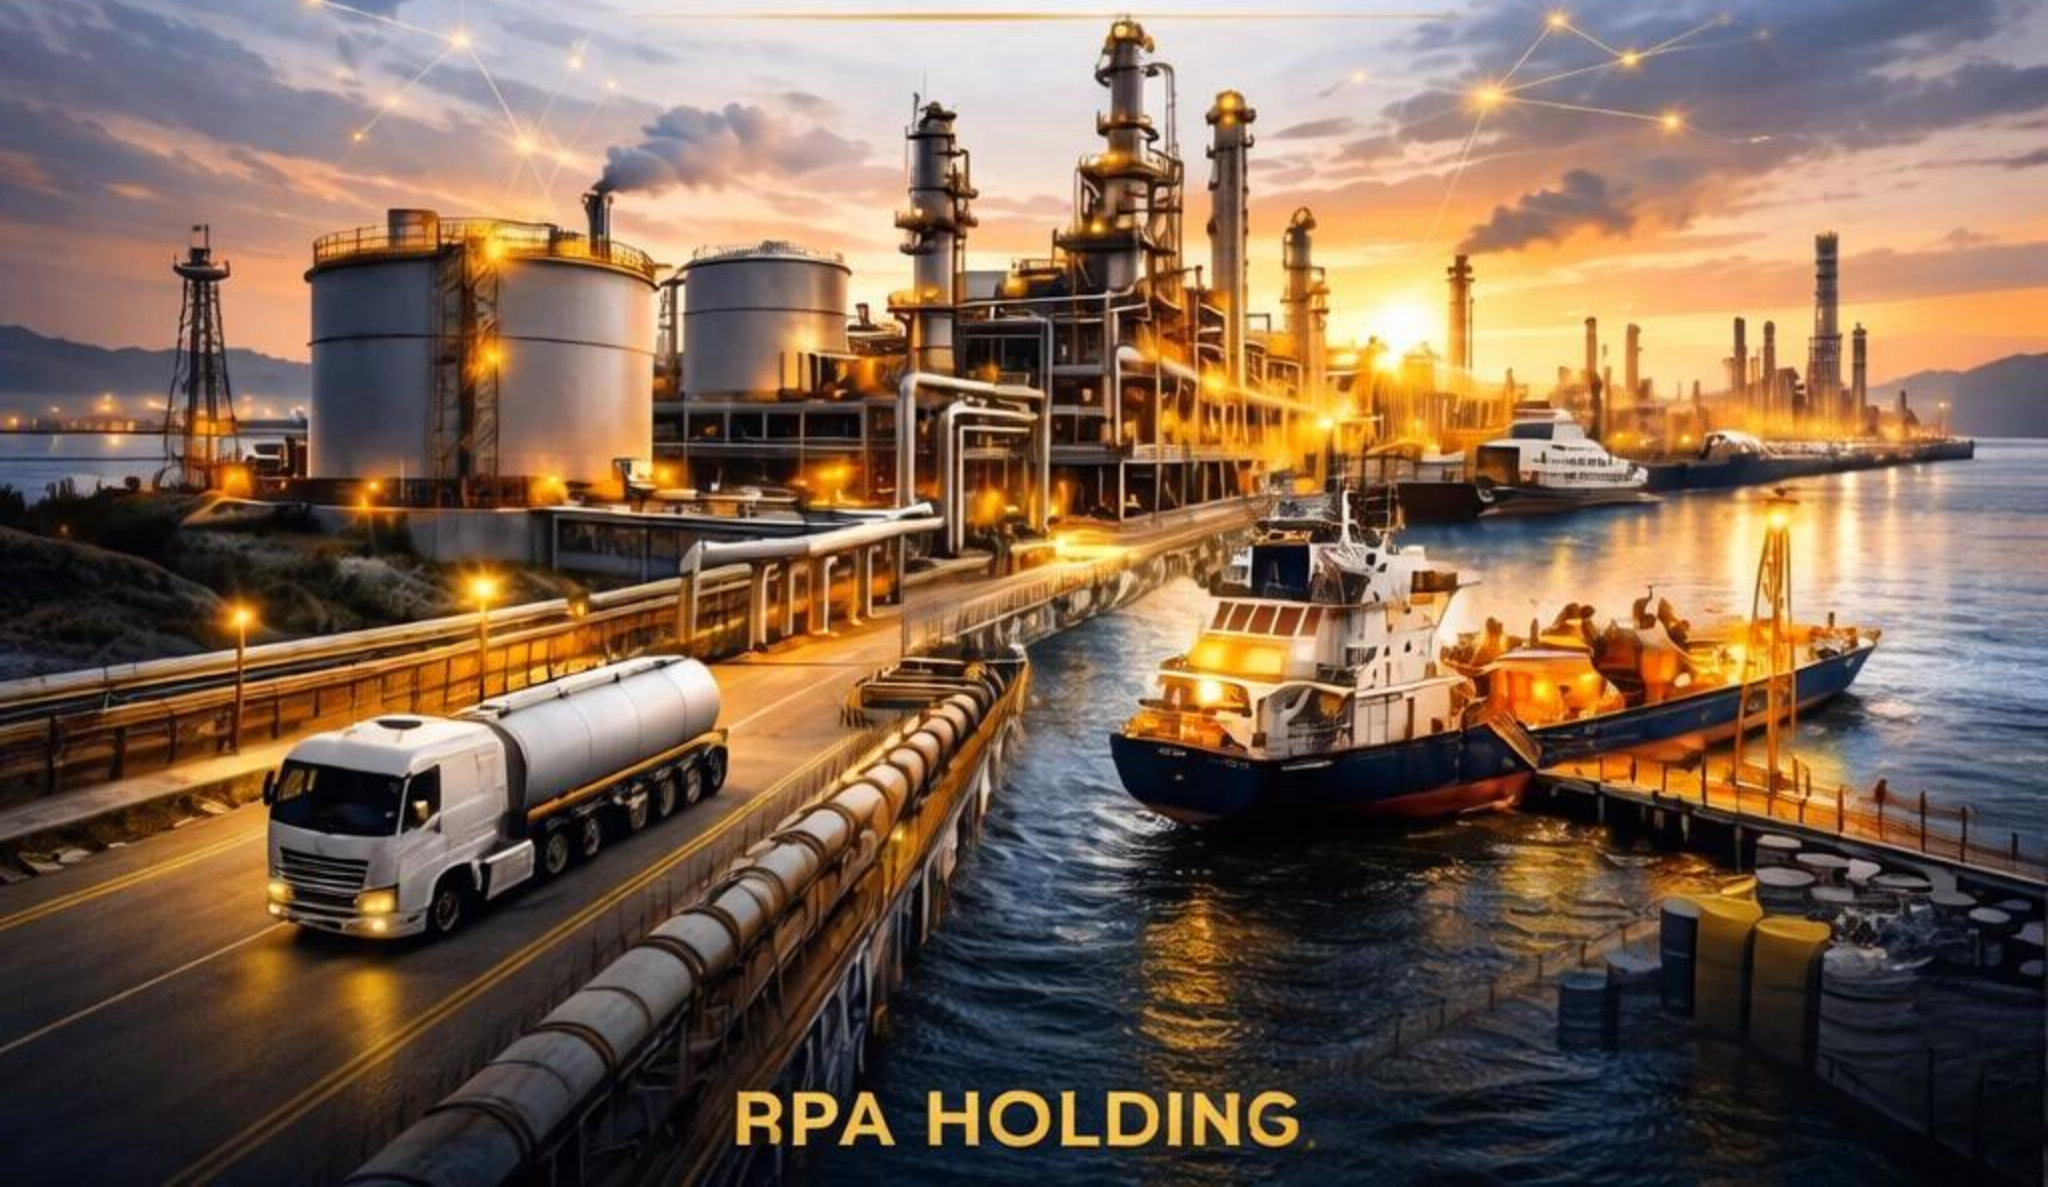

PPA Holding (Petro Payame Arg):

Established with the **vision of creating an integrated infrastructure** in the international energy trade, PPA Holding has forged **strategic alliances** with top-tier products and allocation holders. These long-term relationships guarantee the **security, stability, and continuous supply of essential products across global markets.**

Our Mission:

We are driven by the precise identification of **resources, optimal logistics management, and the provisioning of highly flexible financial solutions.** Our goal is to **consistently meet and exceed** the growing, complex demands of the **global petrochemical and refining industries.**

RPA HOLDING

Petroleum & Energy Products Management

PPA Holding supplies a comprehensive range of premium petroleum derivatives, meticulously sourced and refined to meet stringent international standards:

Gas Oil (Diesel)

Reliable supply and transit of Gas Oil complying strictly with EN590 and D2 standards, featuring customizable sulfur content tailored to client specifications (under 3000 ppm).

Gasoline & Octane

Specialized provision of double-distilled gasoline and industrial-grade octane, engineered to significantly enhance fuel quality for advanced refinery applications.

Light Distillates

A steady supply chain of light-end products, including premium gasoline, naphtha, gas condensates, and highly purified CNG.

Heavy Distillates

Bulk supply of High-Sulfur Fuel Oil (HSFO), primarily servicing large-scale power plants and the global maritime bunkering sector.

Global Bitumen Supply

🕒 Variety of Grades:

We provide a versatile portfolio of bitumen, including standard **Penetration Grades** (60/70, 80/100); advanced **Performance Grades** (PG), and **Viscosity Grades** (VG) to meet diverse climatic and infrastructure demands.

🕒 Packaging & Logistics Solutions:

We operate state-of-the-art **mechanized depots** that ensure flawless loading processes. We offer **flexible delivery mechanisms**, including **new steel drums, jumbo bags, or bulk shipments**, guaranteeing absolute quality preservation from the **refinery to the final destination**.

Chemical & Polymer Solutions

Fertilizers:

Sustainable, high-volume exports of **urea** in both agricultural and **industrial** grades, complemented by **export-quality sulfur** and **ammonia** as a key **fertilizer** feedstock, delivering reliable supply solutions as a trusted provider to rapidly expanding markets across Asia and Africa.

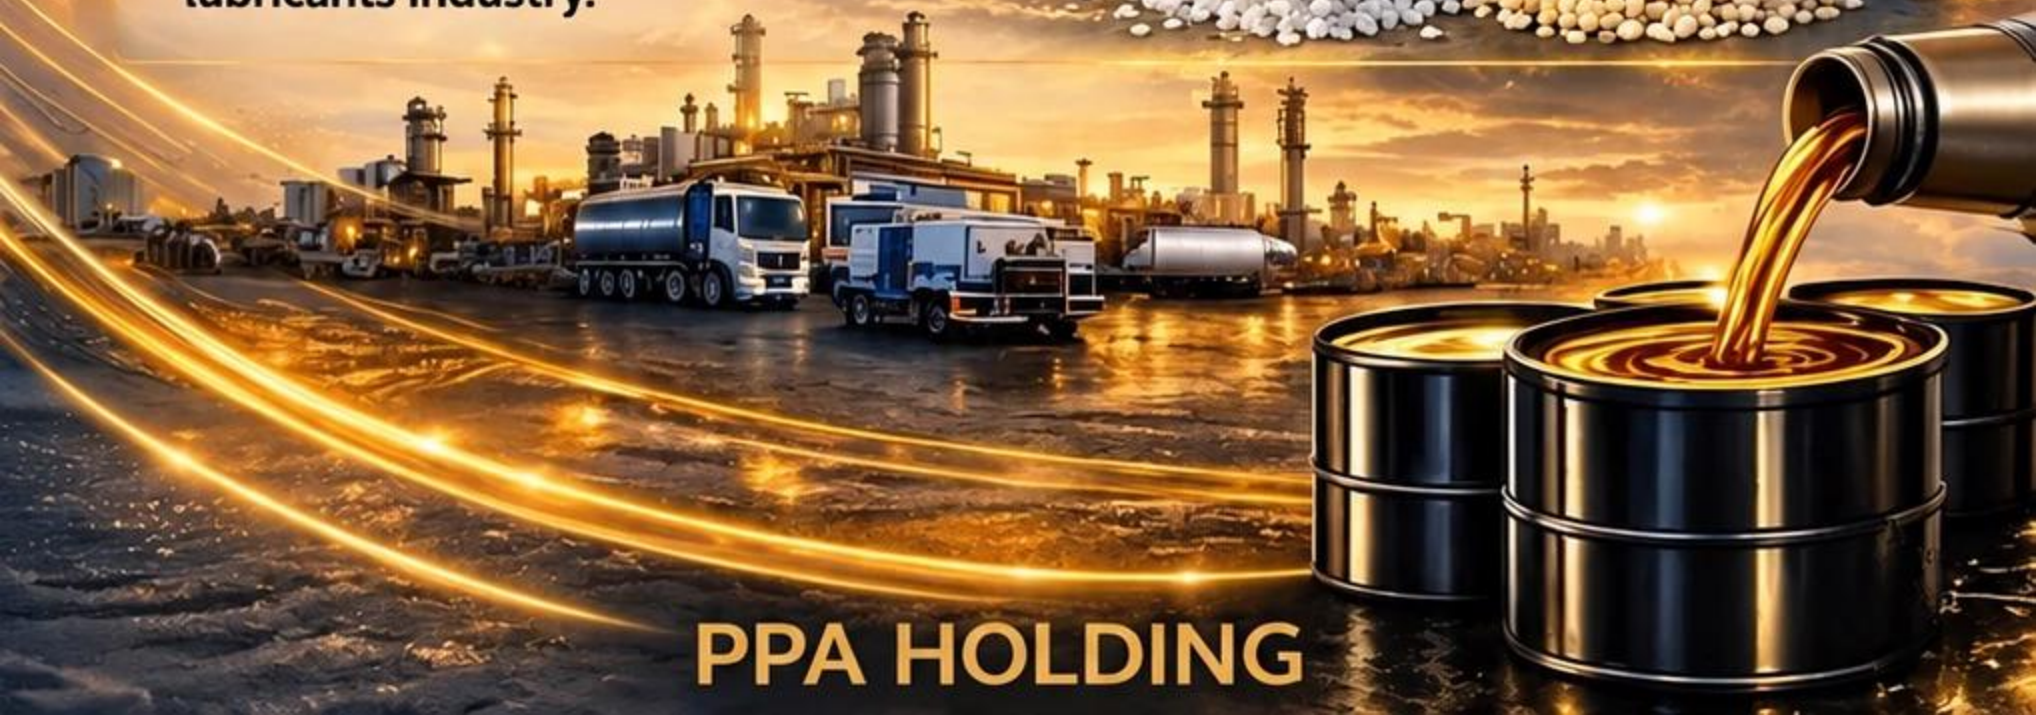

Specialized Polymers:

Exclusive distribution of advanced **polymer** solutions, featuring **acrylonitrile butadiene styrene (ABS)**, **polystyrene (PS)**, **polyethylene (PE)**, and **polypropylene (PP)**, delivering high-performance materials engineered to meet the evolving demands of modern manufacturing and **industrial applications** across global markets.

Industrial Base Oils:

Consistent global supply of premium **base oils**, prominently featuring **SN 500**, essential for the manufacturing requirements of the **international lubricants industry**.

Global Reach & Delivery Chain

Logistics Management:

Absolute operational command over international delivery protocols, including DAP, DPU, FOB, and CIF. Our expertise spans land border crossings, intermediate storage tank management, and global operations.

Operational Regions:

Our primary trade routes and strategic hubs are concentrated in CIS countries, the Middle East, China, Europe, Turkey, and Afghanistan.
